

The Grantchester Pottery

Wallpaper

2017

The Grantchester Pottery is an artistic collaboration between Phil Root and Giles Round that creates a range of artworks, including functional and decorative objects. They produced this wallpaper for Bluecoat's 300th anniversary exhibition, *In the Peaceful*, in 2017.

The design was inspired by the early modern art shown at Bluecoat, including the 1911 and 1913 Post-Impressionist exhibitions.

Post-Impressionist – art that came after the Impressionist painters.
