

Larissa Sansour

In the future they ate from the finest porcelain

Art and Ideas

Use this template to plan what you would like to put in your time capsule.

Think about:

- Are you showing what life is really like today or are you creating a 'fake' history?
- What would you like people in the future to know or think?
- What are the important things you would like to include? Think about technology, food, toys, school etc.
- Are the objects you're including telling a story? Or are they meant to confuse?
- How do you think someone in the future would feel finding this time capsule?
